DECLARATION OF SHIRLEY MAYHUE

I, Shirley Mayhue, hereby state and declare as follows:

1. For the time periods 2005 to 2012, and again from 2013 to the present, I have served as the Senior Media Assistant at Coral Ridge Ministries Media, Inc. ("Coral Ridge"), one of the Settling Devotional Claimants ("SDC") in this proceeding.
2. On June 28, 2016, I received an inquiry from Coral Ridge's counsel, Jonathan McCants, passing along a request from counsel for the SDC to search for copies of Nielsen's Reports on Devotional Programming ("RODPs"), particularly relating to the years 1999-2003. I understood that the SDC's counsel had RODPs for the February sweep month for each of those years, but not for the other three sweep months in each of those years.
3. After conducting an extensive search of Coral Ridge's files, I located certain paper files containing page R-7, a summary results page, from the RODP for each of the following sweep months: May, July, and November, 1999; February, May and July, 2000; November, 2001; July,

2002, and May, 2003. Our files contained the documents attached hereto, which include the R-7 summary pages for the time periods specified, as well as certain “NSI Average Week Estimates” regarding Coral Ridge’s programming for the same time periods. To the best of my knowledge and belief, these are the only pages from the RODPs from 1999-2003 in Coral Ridge’s possession. I provided copies of these pages to Coral Ridge’s counsel, who I understand then provided them to counsel for the SDC.

4 The files were kept in Coral Ridge’s off-site warehouse, located at 1441 SW 10th Ave #206, Pompano Beach, FL 33060, with our other television and radio syndication files from the same time period. Because of employee turnover through the years, I do not know why some months were in our files, but some were not. I believe that Coral Ridge ordinarily attempted to maintain radio and television syndication and ratings data in order to track ministry performance and carriage information over time. I believe that the entire Nielsen reports were not kept due to file size limitations. Since the R-7 pages and the NSI Average Week Estimates referencing Coral Ridge were most helpful for our tracking purposes, they were maintained even when the rest of the Nielsen reports were discarded because of space limitations.

I hereby declare under penalty of perjury that the foregoing is true and correct.

August 17, 2016
